## [edit] (TS//SI//REL) Malicious foreign actor == disseminator of US data?

**Can we treat a foreign server who stores, or potentially disseminates leaked or stolen US data on it's server as a 'malicious foreign actor' for the purpose of targeting with no defeats? Examples: WikiLeaks, thepiratebay.org, etc.**

NOC/OGC RESPONSE: Let us get back to you. (Source #001)

## [edit] (TS//SI//REL) Unknowingly targeting a US person

**I screwed up...the selector had a strong indication of being foreign, but it turned out to be US...now what?**

NOC/OGC RESPONSE: With all querying, if you discover it actually is US, then it must be submitted and go in the OGC quarterly report...'but it's nothing to worry about'. (Source #001)
