(U) The United States on 10 August urged other nations with forces in Afghanistan, including Australia, United Kingdom, and Germany, to consider filing criminal charges against Julian Assange, founder of the rogue Wikileaks Internet website and responsible for the unauthorized publication of over 70,000 classified documents covering the war in Afghanistan. The documents may have been provided to Wikileaks by Army Private First Class Bradley Manning. The appeal exemplifies the start of an international effort to focus the legal element of national power upon non-state actor Assange, and the human network that supports Wikileaks.[16]
