While we have invested significant analytic and collection effort of our own to find and exploit these communications, the difficulties we face in obtaining regular and reliable access to such communications impacts on our ability to detect and prevent terrorist acts and diminishes our capacity to protect the life and safety of Australian citizens and those of our close friends and allies.

We have enjoyed a long and very productive partnership with NSA in obtaining minimised access to United States warranted collection against our highest value terrorist targets in Indonesia. This access has been critical to DSD's efforts to disrupt and contain the operational capabilities of terrorists in our region as highlighted by the recent arrest of fugitive Bali bomber Umar Patek.

We would very much welcome the opportunity to extend that partnership with NSA to cover the increasing number of Australians involved in international extremist activities – in particular Australians involved with AQAP.
