SILVERZEPHYR FAA DNI Access Initiated at NSAW (TS//SI//NF)

By NAME REDACTED on 2009-11-06 0918

(TS//SI//NF) On Thursday, 11/5/09, the SSO-OAKSTAR SILVERZEPHYR (SZ) access began forwarding FAA DNI records to NSAW via the FAA WealthyCluster2/Tellurian system installed at the partner's site. SSO coordinated with the Data Flow Office and forwarded numerous sample files to a test partition for validation, which was completely successful. SSO will continue to monitor the flow and collection to ensure a ny anomalies are identified and corrected as required. SILVERZEPHYR will continue to provide customers with authorized, transit DNR collection. SSO is working with the partner to gain access to an additional 80Gbs of DNI data on their peering network, bundled in 10 Gbs increments. The OAKSTAR team, along with support from NSAT and GNDA, just completed a 12 day SIGINT survey at site, which identified over 200 new links. During the survey, GNDA worked with the partner to test the output of their ACS system. OAKSTAR is also working with NSAT to examine snapshots taken by the partner in Brazil and Colombia, both of which may contain internal communications for those countries.
